### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 14 October 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 22-33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In line 3 of claim 22, it is unclear if "the child seat structure" is intended to be the same feature as the previously set forth "a seat structure". Similarly note claims 24-27 and 30-35. Claims 23, 28 and 29 are indefinite since each depends from an indefinite claim.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 21 is rejected under 35 U.S.C. 102(b) as being anticipated by Burleigh et al (5487588). Note that the base support surface is represented by the surface that engages the vehicle seat bottom. Note the link (30), coupling mechanism (34, 42), and the connector (36).

Claims 26 and 31, as best understood with the above cited indefiniteness, are rejected under 35 U.S.C. 102(b) as being anticipated by Burleigh et al (5487588). Note that the base support surface is represented by the surface that engages the vehicle seat bottom. Note the link (30), coupling mechanism (34, 42), and the connector (36).

Claims 33 and 35, as best understood with the above cited indefiniteness, are rejected under 35 U.S.C. 102(b) as being anticipated by Burleigh et al (5487588). Note that the support surface is represented by the surface that engages the vehicle seat bottom. Note the link (30), coupling mechanism (34, 42), connector (36), and the coupling joint (34).

***Allowable Subject Matter***

Claims 22-23, 25, 27-30, 32 and 34 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claim 24 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action

***Response to Amendment/Arguments***

Applicant's response filed October 14, 2003 has been fully considered. Remaining issues are detailed in the above sections. Indefiniteness has been cited in the claims. Regarding application of Burleigh et al to the claims, Applicant argues that the link 30 is connected to the seat at a pivot point 34 and by an engagement screw 42, wherein the engagement screw 42 either engages in the tapped hole 90 or tapped hole 44 depending on the desired orientation of the link. Applicant argues the engagement screw is necessarily connected to the body at two points, the pivot point 34 and the engagement screw 42 through the tapped hole 90 or 44, wherein this arrangement of two attachment points of the link 30 to the chair 10 does not allow the link 30 to pivot at all with respect to the child seat 10. Applicant argues that the claims present the rigid link as attached to the child seat solely by a coupling mechanism, wherein the rigid link is able to pivot about the attachment point on the seat.

Burleigh et al discloses temporary removal of member 42 to allow for pivoting of the rigid link about member 34. Note this disclosure in paragraph 7 in column 3. Such permits angular movement of the child seat structure relative to the rigid link. Burleigh et al remains properly applied to the claims.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
